

# Pertunjukan Rakyat

*Pertunjukan Rakyat* or abbreviated as *Pertura*, or literally translated as People's Show, is a program initiated by Surabaya City Government under the management of Department of Communication and Informatics. It was first started in 2010, by using the method of 'mobile show'. There is a *Pertura* held monthly and it moves to every *kecamatan* (district), and there will be people flocked into the site whenever and wherever it held.

*Pertura* itself aims to deliver the programs from the City Government towards all citizens, and to make it more fun and closer towards all people there is a traditional musical group as the performers in this event. Not only traditional music, commonly known as *campursari*, but there are also some traditional dances performs. There are also some small tents which are used by the Departments that have direct service towards all citizens, like registration for ID Card, Birth and/or Death Certificate, Permits/Licenses, Locket for Land and Building Tax, and many more.

*Pertura* is a nice way to deliver the programs from the City Government, as well as preserving the culture in these so-called modern days.
