

## **CAMPUS SOCIAL RESPONSIBILITY**

One of PMKS (social prosperity problem) that should be attention is the child social problems. The problems are continually grown every year. The demands of economic needed sue parents very busy to work. It makes the child less of attention and some parents not care about their children. As the result the child has not people to direct, so the condition makes the children fall to negative environment. The children who got exploitation form the parent. They ask them working to help the parent's economic problem. If a child in the growth process has been contaminated with bad behavior, then the child's life as the younger generation would be threatened, even in zero growth condition. The children are the next generation that should be develops our country. Therefore if it not solves form the start they would pose a bigger problem in the future such as drug use, drinking, prostitution, HIV / AIDS, Child Abuse, and others. Actually, in any condition the children should get their authority like a good education and how to be grown like normally children.

### **The purpose of CSR:**

1. Give a role model for the children as parent / family foster
2. To solve social problems
3. There is no children who didn't school
4. There is no children who has a potential become street child
5. Forming social care of Surabaya society.

The objective of CSR programs is the children who get social problems and the children who didn't got education.

### **Chronology of implementation the assistance activity is:**

The university students come to the student's foster home once a week. The universities students identify the student's foster problem like descript the background of the family, the students hope, and report the development of assistance activity. The format should be clear to descript the children before and after the program. The university students mentoring them with giving advice, guidance, referrals, give some school equipment, and scholarship programs.

The scholarship programs are helped by some university in Surabaya. Where this is in line with the Tri Dharma of Higher Education Community Service where students are required to go directly to the public. The goal is that the student is ready to become members of the community who have academic or professional abilities and be able to apply, develop, and pursue its use to improve people's lives and enrich their culture. This program is expected to be a substitute for learning activities which will be a transfer of knowledge, and insight of students to the social problems.
